Founder's Message

I have always carried the vision of running a school—perhaps inspired by the Nursery, Primary, and Secondary school my parents founded and still manage today.

To me, education—whether formal or informal, affordable, knowledge-based or skill-based—is the most powerful solution to many of humanity's challenges. I firmly believe that education is the force that will lift Africa out of poverty and reposition the continent as a global superpower.

It is from this conviction that I established the **Transformation College of Business and Technology (TCBT)**, with a mission to contribute to Africa's development through free, accessible education for secondary school leavers and above.

Dr. Orlando Odejide

Academic Programs Overview

A Year of Innovation, Excellence, and Transformation

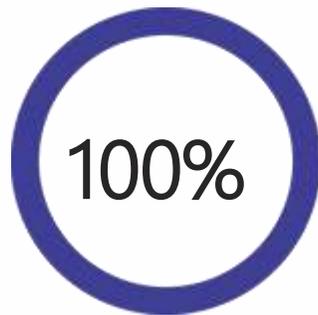

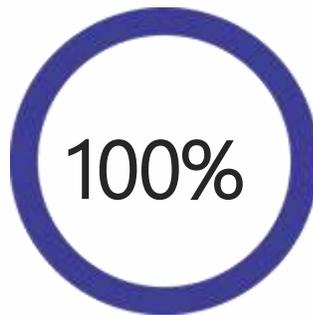

Summer Program in Business Analysis, Project Management and ISO Management Systems

The BA Summer Program at TCBT is a 12-week accredited diploma that trains students to become effective business analysts. Delivered virtually, it blends core BA skills with ISO management systems, teaching learners how to gather requirements, analyze processes, and support organizational change.

Through real-world projects and case studies, students practice tools like SWOT and BPMN while applying ISO standards such as ISO 22301 for business continuity and ISO 9001 for quality management. The program also strengthens communication skills, ensuring graduates can translate technical insights into clear strategies.

Expertise That Inspires

At Transformation College of Business and Technology (TCBT), our trainers are the backbone of everything we stand for. Their dedication, discipline, and commitment to excellence go far beyond teaching—they shape minds, build confidence, and prepare our students for real-world success.

Through their expertise, patience, and unwavering support, our trainers have created an environment where learning is practical, purposeful, and transformational. We are deeply grateful for the time, knowledge, and passion they invest in every student. Your impact will be felt not only within these walls, but in the careers and lives you continue to shape.

Thank you for being true ambassadors of TCBT's mission and values.

2025 INITIATIVES

As part of its 2025 initiatives to strengthen learning outcomes across its core programs, Transformation College of Business and Technology (TCBT) introduced Mentors' Day as a structured platform to bridge academic learning with real-world professional experience. This initiative was designed to complement classroom instruction by providing students with direct access to industry insight, guidance, and practical wisdom.

Mentors' Day brought together experienced professionals from business, technology, and related fields to engage with students enrolled in TCBT's core programs, including Business Analysis, AI & Machine Learning, AI Automation Specialist, Digital Marketing, Entrepreneurship & Business Management (EBM), and Diploma in Information Systems (DIS). Through interactive sessions, discussions, and advisory talks, mentors shared practical perspectives on career development, workplace expectations, and industry trends.

TRANSFORMATION COLLEGE OF BUSINESS AND TECHNOLOGY | Trane_college | Transcolge | Transformation_College

As part of its 2025 initiatives, Transformation College of Business and Technology hosted a virtual Mentor's Day session focused on career growth and personal development.

Featuring Dr. Michael Onuorah, the event offered participants practical insights on navigating career and entrepreneurial journeys in an evolving professional landscape. Through engaging discussions and real-life perspectives, attendees gained clarity, motivation, and actionable guidance.

The session reinforced the College's commitment to guiding learners through mentorship, connection, and continuous growth.

TRANSFORMATION COLLEGE OF BUSINESS AND TECHNOLOGY | Trans_college1 | Transcollegel | Transformation_College

Mentor's Day 2025 was one of Transformation College of Business and Technology's key learning engagements for the year, bringing together students and professionals for a focused conversation on mentorship in a digital age. With Tola Anjorin (USA) as Guest Speaker, the session examined how artificial intelligence is reshaping guidance, leadership, and career development, while reaffirming the enduring value of human insight, ethics, and lifelong learning. Delivered virtually, the event strengthened the College's ongoing effort to develop well-rounded professionals equipped for an evolving world of work.

Student Success Stories

With zero knowledge as a beginner ,The digital marketing class was very informative and practical. I gained a clear understanding of online marketing strategies. The lessons were well-structured and easy to follow. Complex topics were explained in a simple way. I learned how to use tools like Google Ads and Analytics. The class improved my knowledge of SEO and content marketing. Practical examples made learning more interesting. Questions were answered clearly. I now understand how digital marketing works in real businesses. I learned how to target the right audience effectively. I highly recommend this digital marketing class to anyone interested in online marketing All this became possible because of Transformation college of business technology 100

Name: Mercy Ada Ugboh

Student Success Stories

I was fortunate to take the English language course at TRANSFORMATION COLLEGE OF BUSINESS AND TECHNOLOGY, last semester, and it exceeded all my expectations. The instructor's ability to break down complex concepts into bite-size, real-world examples made the material easy to grasp, and the monthly live sessions kept me engaged. I especially appreciated the collaborative projects—they not only reinforced what we learned but also connected me with professionals from different industries. Because of this course, I've already started applying the new data-analysis techniques in my job and have seen a noticeable improvement in my project outcomes. I highly recommend [TRANSFORMATION COLLEGE OF BUSINESS AND TECHNOLOGY] to anyone looking to level up their skills and expand their network in ENGLISH LANGUAGE and any other course.
